Notes & Guardrails

- Individual tax preparation begins at **\$600** and increases based on complexity (RSUs, ESPP, multi-state, rentals, high-volume trading, etc.).
- Senior, student, and low-income rates may apply — just ask.
- Advisory add-ons are for tax planning and Q&A only. They do **not** include notice resolution, audit representation, amended returns, payroll work, bookkeeping cleanup, or entity return preparation (billed separately).
- Advisory plans are available as an add-on to **any** tax preparation engagement.
- A "consult" is up to 50 minutes (phone/video). Short follow-ups (5–10 minutes) are fine; longer items count as a consult.
- Priority Access Plan includes priority response and scheduling (as availability allows) and up to **6 planning sessions** per calendar year (each up to 50 minutes).
- S Corporation / C Corporation and Trust / Estate starting rates reflect the expertise and complexity these engagements require; final fees vary based on scope.
- Amended returns are billed separately and are not included in advisory add-ons.
- LLC Creation includes preparing and filing formation documents. Client is responsible for the Statement of Information and all state filing fees.
- Starting rates apply to standard engagements; additional fees may apply for added complexity (multi-state, rentals, high-volume trading, bookkeeping cleanup, payroll catch-up, notices, etc.).
- Payment terms and deposit requirements are discussed at engagement. Ask about payment options for higher-ticket services.
